

This project focuses on the Patient App, we would definitely want a provider app as well, so instead of the stupid emails it would get a notification on his app.

The android image will be replaced with a better image, possible the simile with braces pic in the proposal.

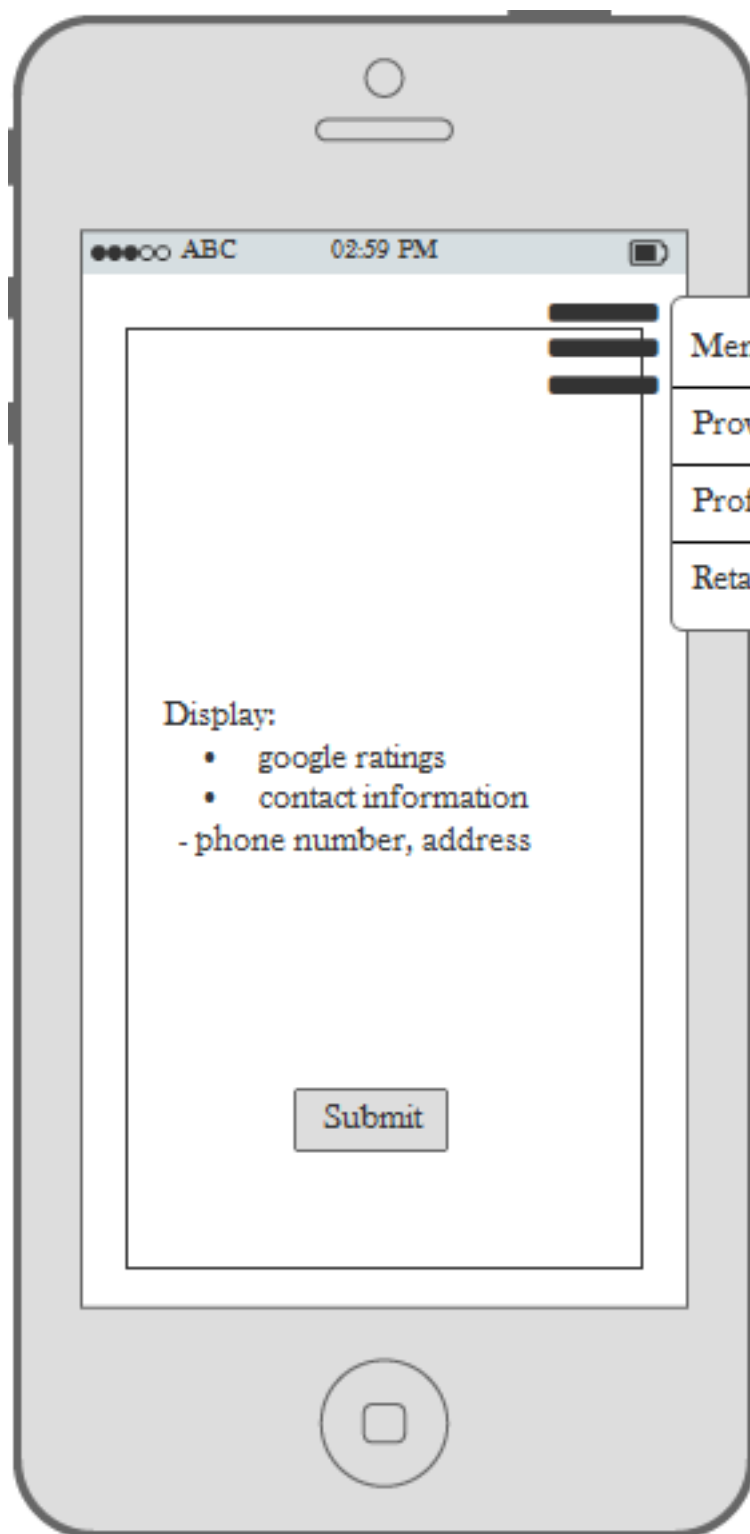

Allow them to sign in with Facebook or Google?

A **paragraph** of **text** with an unassigned link.  
A *second row* of text with a web link.

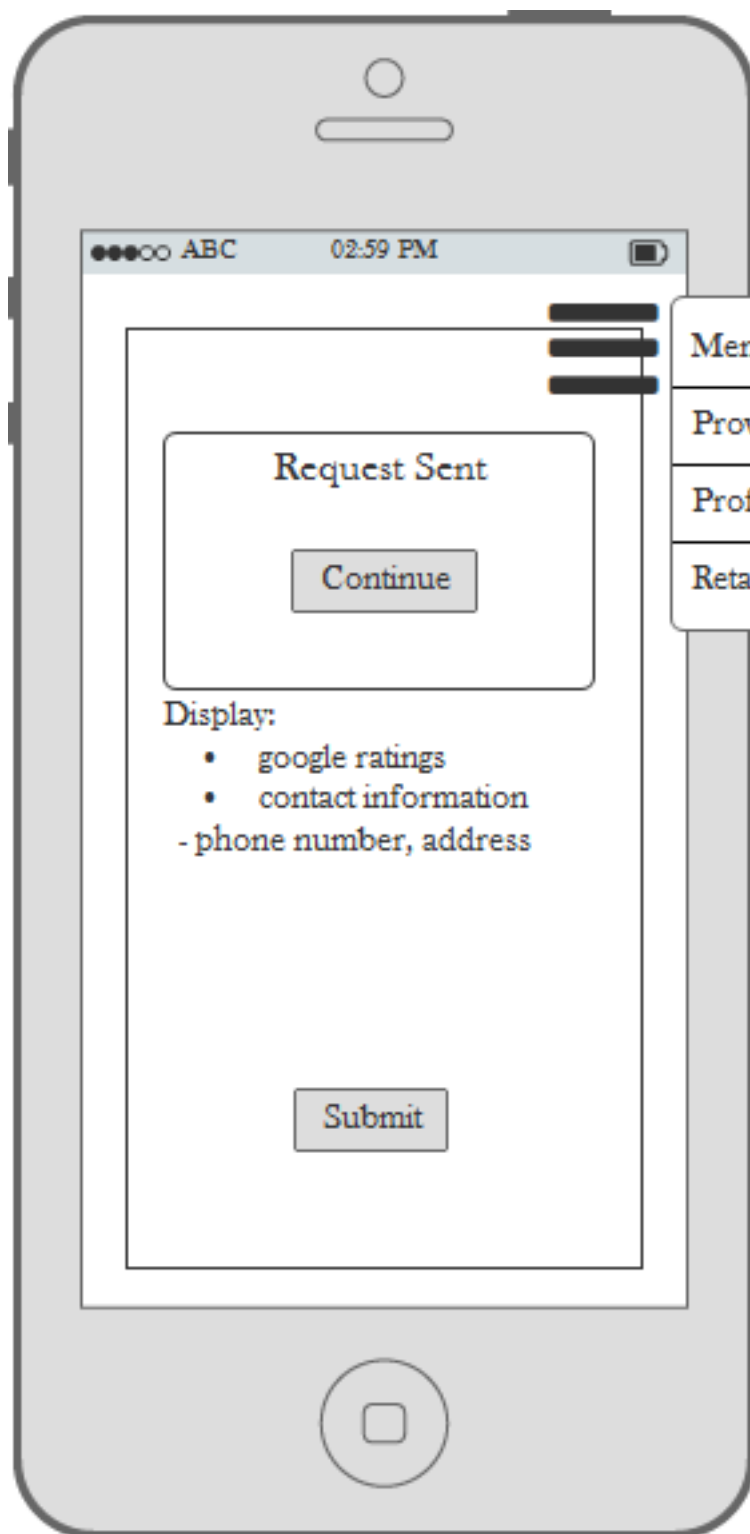

The android image will be replaced with a better image, possibly the simile with braces pic in the proposal.

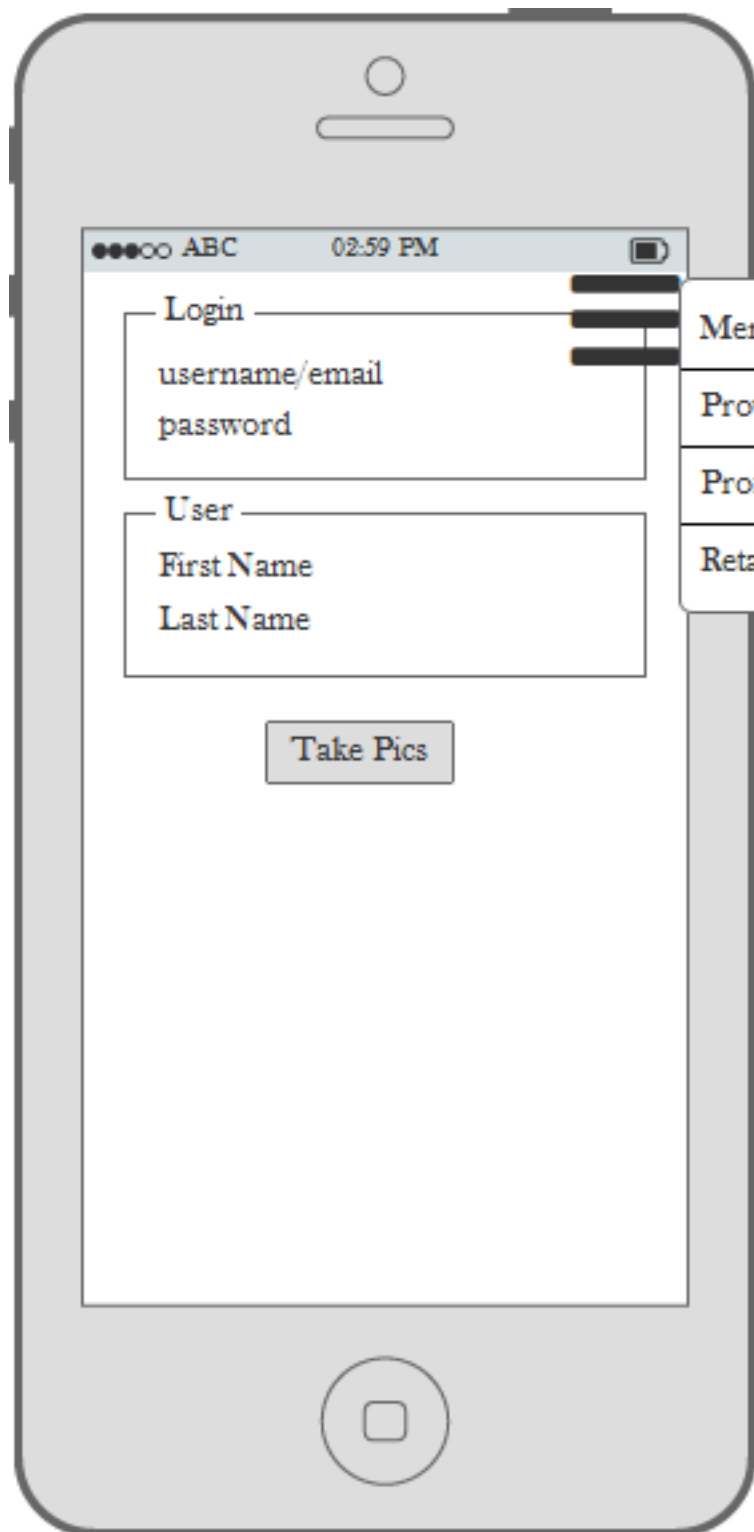

Instead of a "Register" button we could just have some text with a hyperlink. For instance, something like "To register click here."

If they have not yet been prompted to fill out the full profile, do so now.

If they have not yet been prompted to fill out the full profile, do so now.

If they logged in with Facebook or Google we could pre-populate these boxes and either them, at least the username/password info.

Would the insurance info be considered PHI?

This full profile is only prompted for once they try to send to the dentist.

A mobile app interface for a dental service. The screen is divided into three main sections: Login, User registration, and Insurance. The Login section has fields for username/email and password. The User section has fields for First Name\*, Last Name\*, age, gender, Address, City, State, and Zip Code. The Insurance section has fields for Provider, Plan Number, and Interest in third party financing. A menu icon (three horizontal lines) is located to the right of the Login section. A 'Pics' button is at the bottom right.

A mobile app interface for a dental service, showing the profile completion screen. The screen is divided into four main sections: HIPPA disclaimer link, Medical/Dental History, Chief Complaint, and Desired Treatment. The Medical/Dental History section has questions about orthodontic treatment, current dentist, last dental cleaning, cavities, and medical conditions. The Chief Complaint section has questions about what the user wants to change about their smile, teeth, and face/profile. The Desired Treatment section has a checkbox for selecting all that apply, including braces, invisalign, and lingual braces. A 'Pics' button is at the bottom right.

ABC 02:59 PM

HIPPA disclaimer link?

Medical/Dental History

Any history of orthodontic treatment?

Current dentist?

Last dental cleaning?

Any know cavities?

Any medical conditions or diseases?

Chief Complaint

What would you like to change about your smile?

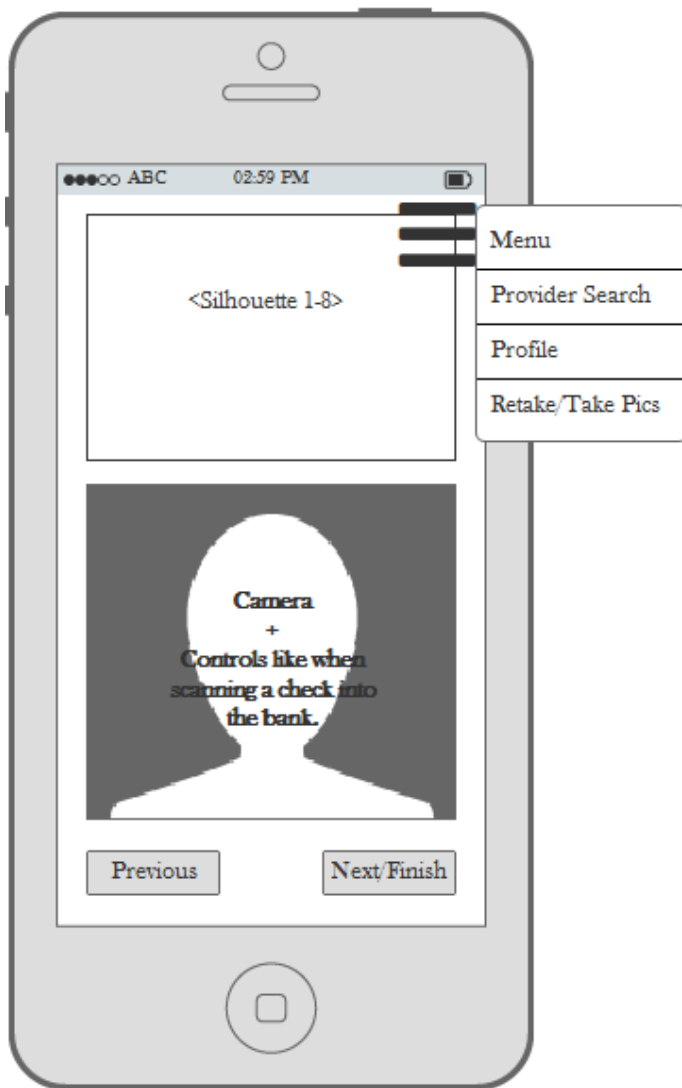

What would you like to change about your teeth?

What, if anyting, would you like to change about your face or profile?

Desired Treatment

check boxs (select all that apply) - braces, invisalign, lingual braces,
